EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Wahl on January 6th, 2006. The following amendments were authorized by Mr. Wahl in order to distinguish Applicant's invention from nonanalogous devices. The application has been amended as follows:

- In claim 8, line 4, after the word 'having' insert --an upper user engageable portion for resistance exercise and--.
- In claim 16, line 3, after the word 'member' insert --having upper user engageable portion for resistance exercise--.
- In claim 23, line 8, after the word 'member' insert --by a user--.

2. The following is an examiner's statement of reasons for allowance:

Jullien (FR 2,56,735) teaches a stick member exercise device comprising a base, a guide body, a pivot, a stick member and resistance cylinders attached to the lower portion of the stick member.

Berne (US Pat. No. 2,921,791) discloses a stick member exercise device with a base, a guide body defining a planar guide path, a stick member, a pivot and two resistance cylinders.

Art Unit: 3764

The prior art of record fails to teach a stick member exercise device wherein the resistance cylinders are attached to the stick member below the pivot point, as the claims have been amended to recite. Furthermore, the prior art fails to provide the motivation or the means for such a configuration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
